ADA Compliance Economy Hotel Kit

Our ADA compliance Economy Kit is convenient and economical. It includes all devices needed to meet the ADA communications access requirements for your deaf or hard-of-hearing guests. Your kit can be set up in any guest room, including ADA mobility rooms. Quick and easy set up, no tools required and simple storage.

Effective March 15, 2012, the ADA requires equal access for your Deaf and Hearing Impaired guests. The number of kits needed is based on room count:

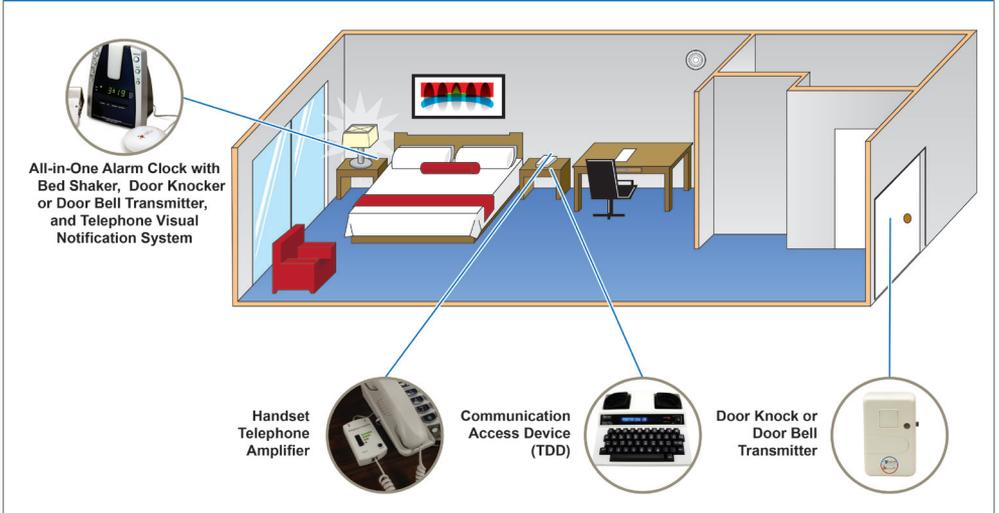

Number of Rooms in your Property	Accessible Rooms
1 to 25	2
26 to 50	4
51 to 75	7
76 to 100	9
101 to 150	12
151 to 200	14
201 to 300	17

401 to 500	22
501 to 1000	5% of Total
1,001 & Over	50, plus 3 for each add'l. 100

No wonder it is the best selling ADA Kit!

Kit Includes:

- Crown® Standard TDD
- Visual Door Knock Signaler
- Handset Telephone Amplifier
- Visual Telephone Ring Signaler
- Alarm Clock with Bed Shaker
- Soft Shell Case

ADA Compliance Deluxe Hotel Kit

Our ADA compliance Deluxe Kit is all you need to meet the current ADA communication access requirements. The Deluxe Kit is simple to set up and easy to use. The All-in-One Notification System includes an Alarm Clock with Bed Shaker, a Door Knocker or Doorbell Transmitter and a Visual Telephone Signaler. Your guest will never miss a wake up call, a visitor at the door or a phone call. The notification system also allows the use of less electrical outlets and less equipment to set up. The Crown® Standard TDD allows your guest to call the front desk or your local relay service to make outgoing calls. Our best selling Handset Telephone Amplifier works with both analog & digital phones allowing your hard-of-hearing guest to adjust the volume and high frequency sounds to a desirable level. The hotel can permanently install these items in the mobility rooms and keep additional portable ones on hand for deaf or hard-of-hearing guest who do not require the use of a mobility room. **This is a must have!**

Kit Includes:

- Crown® Printer TDD
- All-in-One Notification System*
 - * Alarm Clock
 - * Bed Shaker
 - * Door Knocker/Bell Transmitter
 - * Visual Telephone Signaler
- Telephone Amplifier
- Soft Shell Case

**WE GLADLY
PROVIDE
ASSISTIVE DEVICES
UPON REQUEST**

Identify your property as one that offers ADA compliant equipment for the deaf and hard-of-hearing. Display this sign at your front desk or in the lobby. Acrylic sign has the universal pictogram for the deaf and hard-of-hearing. Comes with self-adhesive tape on the back for easy mounting. 11 1/2"W x 5"H.

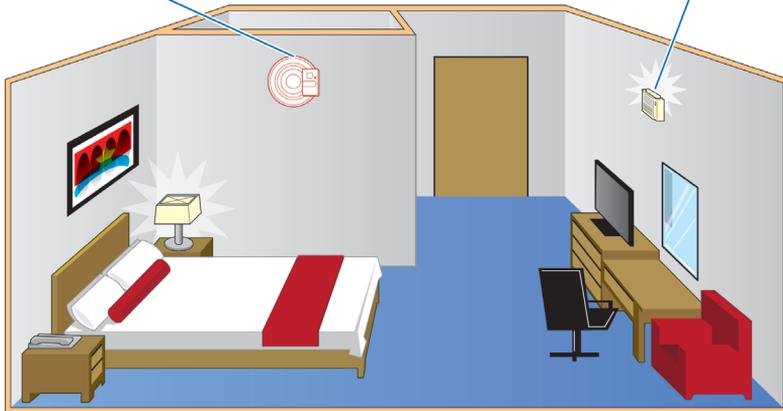

Make Any Built-in Fire Alarm a Visual Notification System for the Deaf and Hard-of-Hearing

Install Transmitter
tool-free to existing
fire alarm

Portable Emergency
Alerting System
with Transmitter

*not to scale

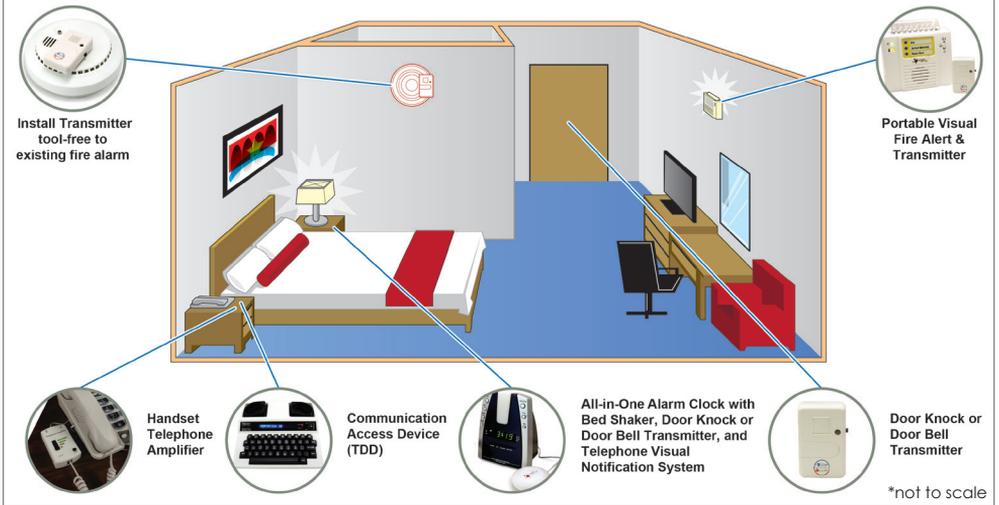

The KA300 system is an emergency alerting system used as a bridge to transmit audible signals from an existing built-in fire alarm to the sound and strobe receiver in the guest's room.

The KA300 connects up to three built-in audible emergency alarms such as fire/smoke, carbon monoxide, weather alerts, Vessel General Alarm into one monitoring system. When activated anywhere in the building, the transmitter sends a wireless signal to the sound and strobe receiver to notify your guest of an emergency. The KA300 system installs in minutes with tool-free installation without the cost of re-wiring the building.

It is designed to fit small, medium or large-scale buildings. The KA300 is an ideal product for a hotel, dormitory, apartment or office building.

A

B

C

D

A. Telephone Flasher

Easy-to-install Telephone Flasher can be used anywhere and does not need an additional power supply to operate. The light from the dome shape produces a strong flash to alert your guests to an incoming call.

B. Telephone Amplifier

For your deaf or hard-of-hearing guests who use the phone but require amplification. Use the adjustable volume control to increase the phone volume and adjust the high frequency sounds to a desirable level. Works with analog and digital phones.

C. Door Knocker

This ultra bright and long-lasting LED indicator alerts your guests when someone is knocking at the door. The portable and convenient Door Knocker can be used as a flashlight in the event of a power outage. Includes a low battery indicator light.

D. Alarm Clock with Bed Shaker

Specifically designed with your deaf or hard-of-hearing guests in mind. Your guest can choose to use the adjustable audible alarm up to 95dB, the strong bed shaker or both. Large snooze button and 9V battery backup.

ADA COMMUNICATION

The trusted brand used by leading hotels to provide communication access for over 30 years

All-in-One Notification System

Never miss a wake-up call again!

We combined visual alerts for the telephone, TDD ring, door knocker and alarm clock into one convenient, easy to setup unit.

Product includes a bed shaker, lamp outlet, and audible alarm. 5"W x 6"H x 3"D. 1-year limited warranty.

Guest Room TDD

Allows your deaf and hard-of-hearing guests to communicate with your staff and make outgoing calls.

Needed to fulfill ADA requirements, the Text Telephone (also known as a TDD) allows typed messages to be transmitted through the hotel handset, permitting 2-way typed conversation.

Krown® Standard Model is a full-featured TDD at an exceptional price. Accepts round or square handsets, has a user-friendly, 44-key, PC-type keyboard. Messages viewed on a 20-character fluorescent display. Runs on standard AC current or rechargeable batteries (included). 10 1/4"W x 3"H x 12"D. 1-year warranty. **Made in the USA.**

Front Desk TDD with Printer

The Krown® Printer model provides the front desk easy and direct communication with your deaf or hard-of-hearing guest. The built-in 20-column, high-speed printer provides a complete print out of any conversation. The printer also enables the front desk to ensure they have correct reservation information, room service order and housekeeping requests.

The Krown® Printer model is a full-featured TDD at an exceptional price. Accepts round or square handsets, has a user-friendly, 44-key, PC-type keyboard. Messages viewed on a 20-character fluorescent display. Runs on standard AC current or rechargeable batteries (included). 10 1/4"W x 3"H x 12"D. 1-year warranty. **Made in the USA.**
